

# THE BLAIRMORE ENTERPRISE

VOL., XXXVII, NO. 27

THE BLAIRMORE ENTERPRISE, FRIDAY, JULY 12, 1946

\$2.00 PER ANNUM

"Serve the Church that the Church  
May Serve You."

## CENTRAL UNITED CHURCH BLAIRMORE

Rev. James McKeivie, Minister

### Services Sunday next:

11:00 a.m., Senior school.  
2:00 p.m., Junior school.  
7:30 p.m., Public Worship.

## ST. LUKE'S CHURCH, BLAIRMORE

Rev. W. Grainger, Rector

Sunday, July 14, at 11 a.m., Morning service and Induction of Rev. Grainger as Rector by Right Rev. R. Ragg, Bishop of Calgary.

## SALVATION ARMY, COLEMAN

Captain and Mrs. T. Smith,  
Officers in charge.

### Sunday services:

11 a.m., Holiness meeting.  
2:30 p.m., Directory class.  
3 p.m., Sunday school.  
7:30 p.m., Salvation meeting.

Tuesday: 7:30 p.m., Red Shield Auxiliary and Home League.

Thursday: 8 p.m., Praise meeting.

Faithful, dedicated and marriage on application to the local officers.

## HILLCREST UNITED CHURCH:

Services every Sunday at 3 p.m.

## BELLEVEUE UNITED CHURCH:

Services at 7:30 p.m. every Sunday.  
Services alternate Sunday mornings at 11 o'clock.

Rev. W. H. IRWIN, Minister.

## BELLEVEUE BAPTIST CHURCH

Pastor: Rev. Fred Bennett

Sunday school 10 a.m.

Morning worship 11 a.m.

Evening service 7:30 p.m.

Midweek meeting:

Wednesday 7:30 p.m.

A cordial welcome awaits you.

Five hundred and thirty Canadian Boy Scouts earned the coveted King's Scout badge last year.

## Going On Vacation?

Vacation time is here again. Perhaps you are taking a trip. Perhaps you are going camping or visiting friends in the city. Wherever you are going, outfit for the whole family may be found in EATON'S Summer Catalogue to make your vacation a happy one.

T. EATON & Co.

## SCHOOL PATROLS PRAISED FOR WORK

School patrols sponsored by the Alberta Motor Association wound up a successful year when schools in the province closed on June 23 for the summer holidays.

The record of these patrols in reducing accidents has been outstanding. They have promoted traffic safety and have been the means of preventing many accidents.

Recently, 200 school safety patrols in Edmonton were guests at a banquet sponsored by the Edmonton branch of the AMA. This was in appreciation of their year's work. A feature was the presentation of honor badges to four boys who had done stellar work during the year.

Police officers, school trustees, school principals and others have been loud in their praise of the AMA school patrols.

Primary duty of these patrols is to make certain of the safe crossing of intersections near the school, by pupils either going to or coming from school.

Since the patrols were organized seven years ago, there has not been a major accident involving school children on streets or highways near such schools.

## SHOPPING LISTS

Haphazard shopping—picking up things on sight and impulse—is not recommended for those who have regard for a careful family budget. The department of national health and welfare advises all thrifty housewives to prepare shopping lists before they start the round of the stores. In this way, it is pointed out, it may be possible to make useful savings, for instance, of some of the Family Allowance cheque. The extra may then be used to provide special treats for the children, without danger of robbing them of the essentials in food, shelter and medical care.

## RUNWAY FOR BRABAZON 1

Farms and cottages of the centuries-old hamlet of Charlton, near Bristol, England, will be torn down in order to build a second runway for the 110-ton Brabazon 1 airplane—biggest land plane yet made in Britain—now under construction. Villagers will trek two miles down the road to the new homes that the British Government is to provide for them. Besides the runway, a huge hangar is being built on a nearby golf course at a cost of \$7,000,000.

## ENVIRONMENT IMPORTANT

Health and happiness are influenced by environment as well as by germs. The development of national health points out that, while modern science pushes forward with research and education to the ultimate conquest of disease, everyone must enlist in the fight for better living conditions. Squallor, say the experts, like apathy, favors sickness.

The engagement is announced of Margaret Elizabeth (Betty), only daughter of Mrs. Roberta Simister and the late Mr. Simister, and Roger, second son of Mr. Frank Demousties and the late Mrs. Demousties, the marriage to take place the last week in August.

The Scout troop in Plaster Rock, a small lumber town well off the beaten track in New Brunswick, has an unique war record. Tilton Sutton, the Scoutmaster has been on the job for twenty-one years. The troop record shows that 196 former members of the troop served in the armed forces; 12 laying down their lives. Members of the troop were awarded 7 D.F.C., 3 M.C., 3 M.M., 1 D.F.M., and one Dutch Bronze Star. Three of the 196 were paratroopers.

## SUGAR FOR CANNING

Second half of the ten-pound allotment of sugar for home canning will be available to consumers with the validating of sugar-preserves coupons S17 to S21, inclusive, on July 4th, the Wartime Prices and Trade Board has announced. The first half of the allotment coupons, S8 to S12 inclusive, became valid on May 2nd. These ten coupons will be in addition to the two regular S coupons valid monthly.

Quota users who house permanent residents may also apply for sugar for canning in addition to their regular sugar-preserves quota, provided they obtain S coupons from their residents. However, no coupons may be detached from the residents' ration books for this purpose without written authority from the bookholders. All letters of authority, forms for which may be obtained from a branch of the Ration Administration, must be attached to application.

## SCOUT TROOP SPONSORS

Canada's 2,157 Scout groups, made up of 1,745 Wolf Cub Packs and 1,450 Scout Troops, are sponsored mostly by churches. The affiliation of Canadian Scout groups are as follows: Anglican 384; Baptist 64; Canadian Legion 29; Community 562; Handicapped 7; Hebrew 15; Latter Day Saints 26; Lutheran 7; Presbyterian 112; Roman Catholic 399; Salvation Army 97; Service Clubs 105; United Church 338; Other groups 145.

## SOUP OR BREAD, BUT NOT BOTH, FOR BRITONS

When dining out, Britons may have bread, but no soup—or soup, but no bread—with a three-course meal. Food Minister Strachey announced.

The minister said that bread may be taken at the main meal with two other courses when bread rationing comes into effect July 21.

Mr. Strachey answered a question on how long bread rationing would continue by saying that hot weather in Britain and wet weather on the Canadian prairies were "very important."

## EXERCISE ESSENTIAL

Exercise is essential to physical and mental well-being at all ages, according to authorities at headquarters in Ottawa of the department of national health and welfare. "Give yourself a break," advises the department, "Don't break down. Physical fitness is an entirely personal matter. Dress right, stand straight, walk confidently. Keep clean, vigorous and young. Depending upon what your family physician advises, get some sort of exercise if you would preserve good health."

Mr. Michael Curcio, son of Mr. and Mrs. D. Curcio, has been quite ill at the Holy Cross hospital but is now improving. His parents were called to Calgary last week.

## How Housewife Aids the Farmer

Even the busiest housewife helps this Dominion Department of Agriculture economist in a food consumption survey. Consulting results from hundreds of these interviews the Department gives farm marketing groups accurate information on the kinds and grades of produce which consumers prefer. Department economists conduct numerous surveys at the request of organized farmers, the food industry and provincial governments.

## SCIENTIFIC RESEARCH BEING HARNESSED TO INDUSTRY

In Britain today scientific research is being harnessed to the needs of industry, and scientists who during the war produced such ideas as jet-propulsion, penicillin, radar, rocketry, the radio-proximity shell fuse and a considerable part of atomic fission data will now turn their attention to research that will keep Britain abreast of the latest advances in commercial technology. Among the scientific wonders now out of the blue-print state and in active development by United Kingdom technicians and scientists are jet-driven locomotives, a trans-Atlantic jet-plane that will cruise 450 miles an hour and weigh more than 90,000 pounds, new radar devices that will make roads, railways and ports more accident free, new adaptations of penicillin and DDT that will make people healthier and crops more fruitful, and a liner of the "Queen Mary" type driven by atomic power. The scope of industrial research is to be extended to even the smallest factories in order to speed the immediate application of the latest scientific achievements to the production drive and to obtain a much closer co-operation between "pure natural science" and industry.

## GETTING A TAN

Those who will set out this year to get a real outdoors tan, are warned by the department of national health and welfare that there is a right and a wrong way of doing it. Initial exposures, sun-bathers are reminded, should be for brief periods only, alternating between sunshine and shade. Don't overdo it, it is urged, and, remember, never try for a quick tan by exposing the body to the noon-day sun.

## UNITED KINGDOM FAMILY ALLOWANCES

Answering a question in the United Kingdom House of Commons on June 20th on Family Allowances, Mr. Lindgren said: "nearly 1,900,000 claims have so far been received, and notifications to the successful applicants will begin to be sent out on July 10. 'I may remind the house that the first pay-day is Tuesday, 8th August. The total which could have been received is 2,500,000. Of the claims so far received, only 2 per cent have had to be rejected.'"

## FIRST SCOUT CAMP

The first Boy Scout camp in history was held on Brownsie Island off the Dorset coast of England in July, 1901. It was conducted by Lord Baden-Powell, founder of the Scout movement. Lord Rodney, of Fort Saskatchewan, Alta., was one of the members of this original Scout camp.

Albert Stella left over the week end for Calgary where he has gone for an operation on his nose.

## COWLEY HAPPENINGS

Farmers are rejoicing over a rainfall of three quarters of an inch on Tuesday of this week.

P. Iwaszuk and J. Perceval are attending summer school at the University of Alberta this vacation period.

Mrs. Eddie Smyth has returned from Calgary, where she was a patient in hospital for a few days.

Mr. and Mrs. Jerome Robins (nee Phillis Porter) and Mr. and Mrs. Mickie Porter are receiving congratulations upon the birth of baby daughters on the 3rd and 5th of July respectively.

Mr. and Mrs. T. R. Jones are spending a few days in Calgary this week, seeing the sights of the stampede.

Mrs. O'Neill, of Pincher Creek, was a guest at the home of Mr. and Mrs. Wm. Cochrane for a few days this week.

Mr. and Mrs. Kenneth Martin and their family of four children were weekend visitors to Waterton Park.

Mrs. Helen Stuart and Mrs. Ida Irwin have returned, following a visit of a few weeks at the home of Mr. and Mrs. Norman Horning at DeWinton.

Mr. and Mrs. Linden Martin and their family of three children spent a few days recently visiting in Calgary.

Mr. and Mrs. Wm. Cochrane were among the masses at Waterton Park on Sunday last, and again on Tuesday of this week the Cochrane were off to visit in Calgary during Stampede week.

Miss Helen Morrison, of the teaching staff in Calgary, is spending the summer vacation here at the home of her parents, Mr. and Mrs. H. C. Morrison.

Mrs. Mike Evans and her two children, of Lethbridge, spent a few days this week visiting at the parental home of Mr. and Mrs. Rollo Burn.

The Ladies Aid of the United Church was entertained by Mrs. Edward Perceval at her home on Tuesday afternoon, July 4th, at their monthly meeting. There were eleven members present. Collection amounted to \$2.75. The next meeting will be held at the home of Mrs. Lawrence Cleland on Aug. 1.

Rev. Father G. Violini, who has been stationed at Schuler and Rev. Father Leo Bartley, who has been in charge here for a couple of years, have exchanged parishes and each have entered upon their church duties in their new fields of labor.

Miss Agnes Martin and Miss Susie Dick, of The Western Children's Missions, will conduct classes in scriptural instructions here for the next two weeks. The children here have been looking forward to this event which now is held annually here.

## SCOUTS ARE PROFICIENT

Boy Scouts in Canada in 1945 earned 25,594 proficiency badges, an increase of 1282 over the previous year's total of 24,312. These badges were in addition to 26,277 rank badges, including tenderfoot, second class, first class, and other special badges.

## FLY MENACE

Reminding Canadians that flies are germ-carriers, the department of national health and welfare, Ottawa, has issued a reasonable warning in the war against these pests. It is advised that special care be taken this summer to check screening to keep flies out of buildings, particularly where there are young children. It is suggested that parents use part of their Family Allowance money to provide adequate screens and mosquito netting.

Mrs. A. Stella returned from Calgary last Friday, where she had been under medical care. On Sunday she left for a month's vacation in California, where she will visit her daughter and many of her friends.

## GOVERNOR-GENERAL PRESIDES

His Excellency the Governor-General carried out his first official function as Chief Scout for Canada by presiding over the annual meeting in Ottawa of the Canadian General Council of the Boy Scouts Association.

## GREENS FOR SUMMER

Substitution of vegetables for some of the heavier foods is recommended by the department of national health and welfare, Ottawa. The department's nutrition experts say that bread consumption may be cut down in favor of vegetables, at this time of the year, and children will still get all the essential minerals and vitamins. This, too, will fall in with the international effort to curtail use of bread in order to provide life-giving foods for undernourished people in lands less favored than our own.

## IT PAYS TO PLAY

Endorsing the old saying about "a work and no play," health authorities in the department of national health and welfare at Ottawa suggest that, in these days, it is not only a personal privilege but a national responsibility, for all able to do so to get some fun in life. By playing games, it is stressed, people of all ages develop self-reliance as well as mental and physical health.

The service at the United Church on Sunday evening next will be held in the Assembly hall, as the painting of the church is not completed. The subject of the sermon will be "Confession of a Failure." Everyone invited to be present.

Richard Slugg, of Coleman, 70-year-old survivor of the Frank slide of 1905 when scores were buried under an avalanche of rock, died Wednesday at Coleman. He helped to lay steel through the Crow's Nest Pass. Funeral service is to be held Sunday afternoon.

## BLAIRMORE SCHOOL DISTRICT

No. 628

## NOTICE to PARENTS

Children who intend to begin school in September must be six years of age by August 31st, and be registered at the Town Office before July 15th.

## BLAIRMORE SCHOOL BOARD.

MILLIONS OF PEOPLE prefer Maxwell House Coffee. It's enjoyed in more homes than any other brand of coffee in the world. It's always "Good to the Last Drop!"

## EDMONTON EXHIBITION

July 15 to 20

## One-Way Fare FOR THE ROUND TRIP

Tax Extra  
From St. Albert in Alberta, B.C. and Saskatchewan

July 13 to 20  
Reaching Edmonton by 5 p.m.  
July 20

RETURN LIMIT JULY 23

## The New Ration Books

IT WAS ANNOUNCED recently that in September, the sixth ration book will be distributed in Canada. There was a time when it appeared that ration book number five would be the last and that by the time the coupons in it had been exhausted, conditions would be such that rationing would no longer be necessary. On the contrary the world food situation is now more serious than it was at any time during the war, and the necessity for the continuation of rationing here is apparent to everyone. We also know that under our present system we are infinitely better off than the people of Britain, Europe and the Orient; and in many Canadian homes today there is voluntary rationing of foods which can be shipped abroad.

### Should Be Ready To Co-operate

In announcing the decision to issue new ration books, Mr. Donald Gordon, chairman of the Wartime Prices and Trade Board, said: "Continued rationing in Canada is this country's answer to a world crying for help. As long as human beings in so many countries of the world are starving or near starvation, it is unthinkable that Canadians should refuse to do their share in helping out." There will be few who disagree with Mr. Gordon in this respect. As yet, Canada has been untouched by any real food shortage, such as has been experienced in other countries. There are many who believe that before the current world food crisis is over, this continent will be more seriously affected than it has yet been. Whatever the situation may be in the future, there is no doubt but that we are at present fortunate in comparison with the people in other parts of the world, and we should be more than willing to co-operate readily in whatever measure of rationing the authorities consider to be necessary.

### Many Volunteer Workers Needed

Hands of volunteer workers will be needed to assist in the task of distribution, and an appeal has been issued to all those who are in a position to help, to offer their services as early as possible. Consumers have been asked to keep in mind that much of the responsibility for receiving the new books lies with them, since the books must be called for at the local distributing centre. It has also been pointed out that while books are to be issued throughout the week of September 8th, all local centres will not be open continuously during that time, and it is the responsibility of the consumer to find out at what times the centre in his locality is to be open. For their own convenience, and in the interest of saving the local ration boards time and trouble, citizens should make every effort to co-operate fully in securing their new ration books promptly.

**LEARN HAIRDRESSING**  
Clean, steady, interesting, refined, good paying profession. Hundreds of positions now open. Many start own shops. Train under direct supervision of outstanding beauty culture experts. Complete, thorough, superior training. The Nu-Fashion School assures success. Write or Call—

327 Portage Ave. Winnipeg, Man.

### Life Savings

Not So Easy Now To Live On The Low Interest Rates

Until a few years ago scores of thousands of Canadians could contemplate secure retirement on life savings of \$10,000 to \$20,000. A farmer could sell his farm, or a small merchant his store, invest the proceeds at 6% and this income plus that from what he had already saved would allow him to live in comfort the rest of his days. He can't do that now and with interest rates still declining he will be in greater difficulties tomorrow. Twenty thousand dollars invested in good securities gave a man an income of about \$100 per month before the war. To get the same income now requires an investment of \$40,000. In the meantime those planning retirement face a double squeeze. The tremendous increase in income tax makes it so difficult to accumulate savings and the sharp rise in the cost of living makes a greater income from those savings necessary. —Financial Post (Toronto).

### NO DUST NO RAIN

There would be no rain in the world were it not for dust particles, which provide surfaces on which the tiny particles of moisture condense to form drops of rain.

## Price Control And Rationing Information

Q—What happens to the meat coupons and tokens which are turned in to the Local Ration Boards and voluntary collecting organizations for the supplying of meat to starving people overseas?

A—All meat tokens and coupons are turned in to the Local Ration Boards by the voluntary organizations and these are counted at regular intervals. The Meat Board then knows exactly how much extra meat will be available for export. Through the coupon collection system, up to the end of May Canadians made 325,000 additional pounds of canned meat available for shipment to the hungry.

Q—Instead of turning in meat coupons and tokens which will not be needed as families starve, would it not be just as well to destroy these coupons at home rather than send them to the Local Ration Board or to some voluntary collecting organization?

A—If you destroyed these tokens and coupons in your own home, the Meat Board would have no way of checking on how much meat was being used by you. For every valid meat coupon and token you turn in the authorities know definitely that that much less meat will be needed to meet the ration.

Q—How many canning sugar coupons are allowed us this year?

A—Ten coupons have been validated for the purchase of canning sugar, each coupon being good for one pound of sugar. On May 2 the first five coupons were declared valid and on July 4 the remaining five were validated. The coupons used for the purchase of this sugar are the sugar preserves, and if canning sugar is not required, the coupons may be used for the purchase of preserves.

Please send your questions or your request for the pamphlet "Consumers' News" or the "Red Book" in which you keep track of your selling prices, mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

### HAD NO INFORMATION

H. G. Wells attributed the decline and fall of the Roman Empire to the lack of newspapers since there was no method of exchanging information between Rome and distant regions.

**When Artificial Light TIRES YOUR EYES**  
RELIEVE THEM WITH MURINE  
Two drops of Murine in each eye will quickly relieve the strain of working under artificial light. Murine was originated by an eye physician to bring relief, gentle, soothing rest to tired eyes. Ask your druggist for Murine—use it every day.

## BEST JOB IN WORLD

Farmer Overcame Great Odds And Tipped Scales Of Victory

The Canadian Federation of Agriculture agreed with the proposal of the Canadian Weekly Newspaper Association to join with them in a nation-wide "Salute to Agriculture". The weekly newspaper is perhaps closer to the land than any person or collection of persons outside the profession of farming itself. Farm people are our neighbors, and as we have mentioned many times during the war years, we are proud of our neighbors, and their great war record.

Only the armed services gave more than our farmers; few, very few, others gave as much. They overcame great odds and great handicaps, in lack of help, in worn and entirely inadequate machinery, and the weariness that years bring on men and on women. But in the face of all this they actually increased food production by over 40 per cent. and by so doing they tipped the scales of victory.

But having won the battle, are we going to win the peace? No peace will ever survive in a hungry world. And the world is hungry today. In fact the forecast from Great Britain is that three times as many people will die of starvation in the next six months as were killed in the whole of the war, and the number of potential famine victims at the end of six months is estimated at 60,000,000 dead.

This is the picture that faces our farm producers. Will they live up to it and surmount it? Undoubtedly they will, just the same as they did during the long six years of war. No one outside the farmers themselves will ever know how hard a task it will be, but sometimes we wonder if they are not just a little pessimistic about their work and their profession. In one breath they deplore the terrible hardships of the farm, and the next day deplore the leaving of their sons and daughters from the farms to the cities.

Such pessimism will never improve agricultural conditions. In fact, until farmers come to realize this, there never will be an improvement. Every farmer should read and memorize the words of the Canadian Minister of Agriculture, spoken in the House of Commons: "If we want to keep our boys on the farms, we shall have to preach a different kind of philosophy from what is being preached today in this House and elsewhere. We must preach the philosophy that there is nothing better, or more worthwhile, than producing food and clothing, the two things that are necessary to all of us. If farming, producing the things we need the most, is not considered the best of all the professions or trades, or whatever you like to call it, there is something wrong with our way of thinking. We believe that farming is the best profession, or trade, or whatever you like to call it, in all the world. And that it is getting better all the time. That is why we join in a salute to agriculture, not only for its war effort and victory, but for the effort it will, without a question of doubt, put forth to win the peace."

### CARRIES SOUND

The sound of the propeller of one ship can be heard by listening near the hull in another ship's cabin below the water line, exemplifying the transmission of sound through the sea.

Motorists should check their headlights once a month to be sure they are in line.

## Radio Activity

Canada Is Second Country In The World To Have Uranium Pile

Canada is the second country in the world to have a moderately stabilized uranium pile, Dr. L. G. Cook of the Atomic Energy Division, National Research Foundation, revealed in a pamphlet being published for the annual conference of the Chemical Institute of Canada.

The pamphlet discloses for the first time some of the facts of Canadian atomic research and predicts Canadian scientists will be among the first to experiment with radioactive elements to develop special medical treatments and to unravel scientific and medical mysteries.

## Slenderizer

One, two, button your dress and you're ready for the day. Pattern 4638 camouflages poundage by means of bodice panels and front buttoned scallops. Pockets optional. Pattern 4638: 34, 36, 40, 42, 44, 46 and 48. Size 36 takes 3 1/4 yards 38-inch material. Send twenty cents (20c) in coins (stamps cannot be accepted) for this pattern. Write plainly: Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Company, Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man.

## GEMS OF THOUGHT

### OBEDIENCE

The reward is in keeping the commandments, not for keeping them.—Lydia Maria Child.

Perfectly conformity to the will of God is the sole sovereign and complete liberty.—D'Aubigne.

Obedience is the offspring of Love; and Love is the Principle of unity, the basis of all right thinking and acting; fulfils the law.—Mary Baker Eddy.

No man can always do just as he chooses until he always chooses to do God's will; and that is heaven. There is no liberty in wrongdoing.—Joseph Cook.

All the good of which humanity is capable is comprised in obedience.—John Stuart Mill.

We need only obey. There is guidance for each of us, and by lowly listening we shall hear the right word.—Emerson.

### CHINESE INGENUITY

More than 3,000 years ago the Chinese were making protective coatings with various materials; lacquer was long a Chinese specialty, it is claimed.

Liberty Cap, the cone of an extinct hot spring in Yellowstone Park, is 3,200 years old. Its age has been determined through the minute quantities of radium it contains. 2908

**Veteran Students**  
Prove Outstanding For Their Academic Ability  
To further substantiate the efforts being made by veteran students in schools throughout Canada, the district office in Edmonton recently received the following letter from N. N. Behtley, Principal, Vermilion School of Agriculture.  
"I would like to take this opportunity to advise you that the veterans in attendance at this school have been outstanding for their academic ability, as well as for their participation in athletic, social and literary activities conducted under the Students Union."

## How to Combat RHEUMATIC PAIN

Rheumatism is a blood impurity that should be attracted by the kidneys. If kidneys fail, and excess uric acid remains, it may cause severe discomfort and pain. Treat rheumatism by keeping your kidneys in good condition. Get and use Dodd's Kidney Pills. Dodd's help your kidneys get rid of trouble-making poisons and excess acids—help you feel better. See what Dodd's can do for you. 137

## Everybody's Problem

People Should Realize Farmers' Troubles Affect Whole Community

It has been long noted that the farmer is one of the greatest of gamblers, says the London, Ont., Free Press. He is dealing constantly with a complex of forces most of which are out of his control. But sometimes we forget that we are all partners in his gamble. If the turn of the dice in this case the weather, goes against the farmer it may well be that many of the rest of us will go hungry. Accordingly, we should realize that the farmers' problems are problems for the whole community.

Radium's radioactivity lasts for centuries, and is only about half dissipated after 2,000 years.

## Farm Methods In France Far From Modern

PARIS.—French peasants, listening to lectures by the agricultural experts, hear with open-mouthed incredulity that dairy farmers in Canada and the United States have machines to do the milking.

They are skeptical—but they listen with avid interest.

The fact—the sudden, eager willingness of the peasants to study and learn new methods—is hailed by officials of the ministry of agriculture as the harbinger of an "industrial revolution" in French food production.

It will take years to modernize French agriculture, a government official told the British United Press. "But the two basic requirements, signing of the Franco-American economic accord and willingness of the peasants to accept modernization, now make accomplishment of this long-standing dream of our economic experts virtually a foregone conclusion."

Invariables of French psychology have always been the agricultural devotion of the peasant to his land and his resistance to change. He has guarded his land with jealous care when all else of value vanished, dividing it among his sons, who carried on the tradition religiously, using the same methods and tools handed down for generations.

Now, however, the systematic looting of 600,000 French horses, an essential part of the war system, by the Germans, as well as even increasing shortages of farm labor due to the tendency of farmers' sons to become impatient with rural life and seek the quicker compensations of factory jobs or white collar professions, have made new expedients imperative.

"The peasants are seeking modernization faster than the slowly re-emerging French industry and North American imports can give it to them," the ministry official said.

One of the principal factors holding up the mechanization program, he pointed out, is the shortage of competent engineers and surveyors, to bring about the necessary regroupment of land.

Under the age-old French agricultural system the land is divided up into small, oddly shaped plots, intensively cultivated. It is not unusual for a man to own a plot completely surrounded by land owned and worked by someone else.

This situation does not lend itself to modern, large scale cultivation, and the farmers themselves are depending to have their land resumed and redivided. Approximately 1,200 communes have applied to the ministry of agriculture for surveys.

## CAR PRIORITIES

No New Applications Will Be Accepted During July

OTTAWA.—Reconstruction Minister Howe announced that no new automobile priority certificates will be accepted or processed during July.

Priorities will be issued immediately, however, on applications which were approved between May 7 and June 30 while issue of priorities was suspended.

Whether any priorities will be handled in August would be decided "in the light of further production reports covering June and the first half of July," Mr. Howe said in a statement.

Issuance of priority certificates was suspended on May 7, when the number in the hands of the public far exceeded deliveries of new motor vehicles to dealers.

## ROUTINE TRAINING

United States Naval Contingent Is Making Arctic Cruise

OTTAWA.—A small United States naval and coast guard contingent will engage in a northern training cruise, partly in Canadian Arctic waters, this summer, the external affairs department announced.

The announcement, made simultaneously in Ottawa and Washington, said officers of the Canadian navy, army and air force would participate.

"The purpose of the cruise is to amplify existing knowledge of navigational and weather conditions and provide routine training for personnel," the statement said.

## STRIKES IN BRISBANE

BRISBANE, Australia.—Brisbane faced a breakdown of industry and transport as the result of a series of strikes. Six thousand meat workers, 2,000 coal miners and 3,500 longshoremen were off their jobs as the result of dismissal of four men from a bacon factory four months ago.

## PREMIER RETURNED

BATAVIA.—The government of the unrecognized Indonesian republic announced that its kidnapped premier, Sultan Sjahrir, had arrived in Jogjakarta "in good health." Sjahrir, abducted from his official residence at Soerakarta, was returned to Jogjakarta by an army detachment, a broadcast said.

## HAVE LEFT INDIA

British Cabinet Mission Failed In Plans For Interim Government

NEW DELHI.—Britain's cabinet mission left New Delhi for London after months of negotiations on the shaping of Indian independence.

Members of the mission were Lord Pethick-Lawrence, secretary of state for India, Sir Stafford Cripps, president of the board of trade, and the first lord of the admiralty, A. V. Alexander.

Simultaneously British authorities announced an eight-member executive council will administer a temporary government for India pending the election of a constituent assembly.

Appointment of the temporary government was made necessary by refusal of the all-India Congress party to approve a British cabinet mission plan for an interim government.

Members of the council, appointed by the king, are Sir George Sponner, Sir Eric Coates, Sir Robert Hutchings, Sir Eric Conan Smith, Sir Gurumath Bewoor, Sir Akbar Hydari, A. A. Waugh and Sir Claude Auchinleck, British commander-in-chief in India.

## Opinions Vary In Regard To Atom Bomb Test

ABOARD THE U.S.S. APFALCHIAN—The atomic bomb proved to be a mighty weapon, but it was not the killer of battleships that many thought it would be in the test in Bikini lagoon.

Exactly what was proved will not be known until evaluation groups of scientists, engineers and technicians complete studies, but arguments over the power of an atomic bomb on ships already are raging and probably will continue for years to come.

One group argues that the atomic bomb was a failure as a destroyer of surface ships and that on the basis of the first Bikini test there is little chance that any drastic change in naval design will be necessary.

Another group holds the atomic giant did everything expected of it—that it sank the Japanese cruiser Sakawa, the destroyers Anderson and Lamson, and sent two transports to the bottom as well as heavily damaging other ships.

This group also pointed out that this was accomplished despite the fact that the experiment was not intended as a test of the bomb against ships, primarily because of a lack of gathering scientific information. They feel that judgment should be suspended until further tests are made.

The fact remains that the air burst of the atomic bomb did not crush battleships, nor drive them to the bottom of the lagoon.

Correspondents who watched the explosion were able to make an inspection tour through the target area and got a close-up view of the entire fleet.

A preliminary survey of the damage brought varying estimates of the success of the experiment.

Navy Secretary Forrestal expressed surprise that the "unimportant" damage he saw during an inspection of the heavier ships.

Brig-Gen. Roger M. Ramey, air force commander, said at Kewajale that the operation was "a complete and unqualified success."

(Dr. J. Robert Oppenheimer, University of California physicist, was of the opinion at Berkeley that early reports could not be expected to provide a true evaluation of the bomb, that detailed scientific study must be awaited.)

(Dr. Oppenheimer said the preliminary reports did not indicate the test was a failure.)

Official announcements gave this as the atom bomb's toll of the anchored target ships:

Sunk—destroyer Anderson; destroyer Lamson; attack transports Griffam and Carlisle; and the Japanese cruiser Sakawa, a modern welded craft.

Heavily damaged—light carrier Independence; battleship Arkansas; heavy cruiser Pensacola; submarine Skate; a tank landing ship; and the Japanese battleship Negato. The Independence was still burning.

About 25 other ships suffered damage in varying degrees.

## WILL BE BETTER

More Pure Pepper Added To Mixture

TORONTO.—Canadians may find their pepper tastes slightly more like pepper than it has for the last four or five years. The reason is that the imitation variety, introduced during the war, will have an increased amount of pure pepper added to the mixture.

Manufacturers said Canadian firms, using a government formula, have been producing a "pepper imitation" composed of 40 per cent pure pepper mixed with flour or cereal and chilli, in order to conserve the scarce stocks of the spice. Next month the percentage of pure pepper will be raised to 50½ per cent. Normally Canadians consume about 1,225 tons of pepper annually.

## Express Hope For Much Larger Crops This Year

OTTAWA.—The world is entering the most critical stage of the present famine period the Dominion bureau of statistics reported in a review of the world wheat situation.

No marked improvement in supplies could be expected until new crops became available within the next four to eight weeks. Indications were that while the 1946 world harvest would be substantially larger than a year ago, few, if any, of the war-torn areas would continue to be placed on the export surplus of other countries.

"Ample evidence exists to show that even with average or better-than-average yields for the remainder of 1946 and 1947, the world situation will remain critical at least until the harvests of 1947," the bureau reported.

The food and agriculture organization had estimated needs of importing countries at possibly 30,000,000 tons of major wheat exporting countries likely able under average conditions to supply only 20,000,000 tons.

Crop prospects in Western Canada were fair and with lake boats again moving little difficulty was expected in reaching, if not exceeding, the 340,000,000-ton export goal.

Latest United States estimates gave hope of the third largest crop on record—1,033,100,000 bushels. The United States hoped to provide 250,000,000 bushels for export this season.

Weather conditions in the Argentine had been ideal, but there had been no official estimate of crop possibilities. Australia estimated a crop of slightly more than 140,000,000 bushels with heavier conditions varying widely.

In Europe heavy rainfalls had reduced crop estimates. Reports from Russia indicated a good harvest.

The Germans were the first people to use gunpowder in warfare in 1338.

## MAY BE EXTENDED

Season In Manitoba For Whitefish Has Been Very Poor

WINNIPEG.—If there are any whitefish in Lake Winnipeg, they've refused to have even a nodding acquaintance so far this season with the crews of the 150 fishing vessels out seeking them.

The Manitoba limit, set by the provincial resources department fisheries branch, is 3,000,000 pounds this year with the season open from June 1-Aug. 1. But if fishermen don't fare any better in July than they did in June, the season may be extended. So far, although figures are not available, it has been one of the poorest on record.

A REAL DANGER—The report of the Anglo-American committee of enquiry on Palestine said the Jewish agency was such a strong factor in Palestine that the Palestine government considered it a "distinctly dangerous influence."

## Canada Will Keep Control On Price Increase

OTTAWA.—A close watch is being kept by the government for a pronounced movement of goods off the Canadian domestic market into the United States resulting from the lifting of the lid on price controls in that country, and if any such movement develops it is expected Ottawa will immediately put an export ban order into effect.

Canada's determination not to allow the situation in the United States to interfere and upset the Dominion's program for a planned, orderly and progressive decontrol, was voiced in parliament by Prime Minister Mackenzie King when he said there was no intention of abandoning controls in Canada.

"Developments affecting prices in other countries, particularly the United States are of course, not without their effect upon Canada. Our policies have in the past and will, in the future, necessarily be influenced by such developments in mind," said Mr. King.

It is noted that during the war export bans were enacted to keep it and it is predicted by informed sources that similar measures would be called upon to keep Canada's economy on a steady keel in the "storm" brewing across the border.

Meantime Canada's machinery for control of prices, which includes the commodity price stabilization corporation, subsidizing imports from the United States will be kept flexible.

"We are determined to follow policies which we believe to be in the general interest, making from time to time, such modifications as seem to be required in the light of internal and external conditions as they develop," said Mr. King.

No one in Ottawa is disguising their disappointment over the blow-up in the United States. It is pointed out that the developments in the American economy can effect the world trade picture.

Canada will continue to pay and if necessary increase, subsidies considered essential to the Dominion's economy. However, informed quarters consider it unlikely subsidies will be required on consumer goods such as radio, refrigerators, automobiles and vacuum cleaners. Increasing Canadian production of such items is expected to offset the light on normal step-up prices due to shortages in those lines.

Coal and cotton, however, are different matters. Already the government has increased the subsidies on those commodities to keep consumer costs down in Canada. It is anticipated, a further offsetting of U.S. price increases through import subsidies will be necessary for such items as oranges, canned fruit juices, gasoline and other products brought across the line.

NEW APPOINTMENT

Graduate Of Saskatchewan University Is Economic Director At Ottawa

OTTAWA.—Appointment of John J. Deutsch as director of the finance department's economic relations division and Kenneth W. Taylor as economic adviser, was announced by the department of finance.

Mr. Deutsch is a graduate of Saskatchewan and Queen's universities and for some years was on the research staff of the Bank of Canada and of the royal commission on dominion-provincial relations. Later he joined the staff of the department of external affairs as special wartime assistant to the under-secretary and for a time was on loan to the department of labor as assistant director, national selective service.

Mr. Taylor is a veteran of the First Great War and a graduate of Toronto, McMaster and Chicago universities. He was formerly professor of political economy and associate dean of arts at McMaster university. He has had long experience in the field of economic investigation and on numerous occasions has acted as economic adviser to various royal commissions and government agencies.

## WANTED EXPLANATION

WELLINGTON, N.Z.—New Zealand waterfront workers threatened to refuse to load the freighter Mariposa with butter for the United States if the government did not give a satisfactory answer to their demand for an explanation why the consignment was not going to Britain.

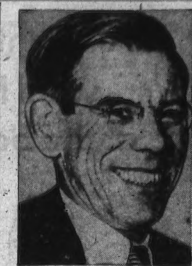

## ARRIVE IN RUSSIA

LONDON.—A nine-man delegation of the British society for Anglo-Soviet friendship, headed by the Stanley Evans, chairman of the British Soviet friendship house, has arrived at Leningrad, the Moscow radio reported.

## CONTROLS TO STAY

OTTAWA.—Prime Minister Mackenzie King, referring to United States abandonment of price, ration and rent controls, announced in the commonsense that he has no intention of doing away with those controls in Canada.

The king saluted has been known to weigh as much as 100 pounds.

DR. D. A. FITZGERALD

U.S. government's leading expert on international food problems, Dr. D. A. Fitzgerald, 45-year-old western Canadian from Grenfell, Sask., has been appointed secretary-general to direct a 20-power campaign against famine. He will be in charge of efforts to round up more food in lands of plenty and divide it fairly among the world's hungry peoples.

## POISON IVY

Learn to recognize, so that you can  
avoid, Poison Ivy, says an announce-  
ment by the department of rational  
health and welfare. Poison Ivy may be  
known by leaves borne alternately on  
the stem. The leaves are compound,  
consisting of three similar leaflets, as  
in the strawberry. They are firm and  
smooth, with margins entire or vari-  
ously coarse-toothed. In early summer  
clusters of inconspicuous whitish  
flowers arise from the axils of the  
leaves, succeeded by round, dull white  
fruits the size of a field pea.

## CONQUERING DIPHTHERIA

Britain's Ministry of Health an-  
nounces that more than 200 local  
authorities have already decided to  
undertake diphtheria immunization  
campaigns this summer, in support of  
the ministry's national drive. The ob-  
ject is to protect as many children as  
possible before the autumn and winter,  
which are the "epidemic seasons" for  
diphtheria. Nearly 6,000,000 children  
have been immunized since the cam-  
paign was launched five years ago.  
Diphtheria figures have declined in  
Britain each year since the Govern-  
ment's campaign began. Last year's  
total of 720 deaths was the lowest  
ever recorded, and only about a  
quarter the pre-war average.

## DEFINITIONS

Husband: Domesticated wolf.

Chivalry: A man's inclination to de-  
fend a woman against every man but  
himself.

Imagination: Something that sits up  
with a woman when her husband  
comes home late.

It's a wonderful thing for a woman.  
The popular permanent wave;  
Now it's up to some struggling  
inventor.

To get out a permanent shave.

Kitchener: "Shine, boy."

Bootblack (looking at the vast ex-  
panse of boots before him): "Here  
Bert, give me a hand. I've got a large  
contract."

Two acquaintances who had not seen  
Macpherson for some years, called at  
his house one Saturday evening. Mrs.  
Macpherson answered the door.  
"Does Macpherson live here?" they  
asked.

"Aye," was the woman's reply, "just  
carry 'im in!"

In Sarnia there is a colored gentle-  
man who conducts a cartage business  
in a small way. The other day he pre-  
sented to a new customer a bill for \$3.

The customer, who is a bit of a wag,  
said: "Stephen, you'll have to give me  
an itemized account. I won't pay this  
until you do."

Stephen retired in obvious confu-  
sion. Next day he was back with a bill read-  
ing:

To three comes and three goes at  
fifty-cents a went — \$3.

## 120,000 A.M.A. ROAD

## MAPS ARE ISSUED

More than 120,000 "strip" or sec-  
tional road maps are being made  
available to motorists in this province  
by the Alberta Motor Association.  
These maps are stocked at all official  
appointments of the AMA, including  
garages and filling stations, hotels,  
lake resorts, auto camps, in addition  
to branches of the AMA in Edmonton,  
Calgary and Lethbridge.

The list includes 14,000 sectional  
maps of the Peace River highway,  
which are being distributed. These  
will be of special interest to those who  
are planning northern trips this year,  
with the possibility of looking over  
territory in the region of the Alaska  
highway.

Civilian holiday travel has not yet  
been authorized over the Alaska high-  
way and it seems that this will not  
commence until 1947. Permits to drive  
over the road must be obtained from  
the traffic control board in Edmonton.  
Certain travel over the road is per-  
mitted, but this in most cases is con-  
fined to people who intend to settle in  
the north country.

There never was a foolproof auto-  
mobile and won't be until the horn  
button operates the brakes.

First farmer: "I've got a freak on  
my place—a two legged calf."  
Second farmer: "Yeah he come over  
to visit my daughter last night."

Two ladies were sitting at an open  
window.

One was listening to a church choir  
practicing across the way.

The other was listening to the noise  
of the crickets.

Th first one said: "How loudly they  
sing tonight!"

And the other one said: "Yes, and  
they tell me they do it with their hind  
legs."

## REO SHIPS BUSES TO CHILE

The largest order for complete buses  
ever placed out of Chile has been  
received by Reo Motors, Inc., according  
to John T. Clark, export manager. It  
consists of 100 complete pusher type  
buses and will represent an invest-  
ment of more than \$1,600,000 when  
they are delivered to Empresa de  
Transportes Colectivos, the association  
of bus operators at Santiago, Chile.

The units are 31 passenger, 190  
inch wheelbase and, except that they  
will carry no heaters or defrosters,  
will be the standard type used in this  
country, Clark said.

Shipping of 100 buses represents  
somewhat of a problem because the  
holds of many ships are too small to  
accommodate a complete bus unit, he  
said, so that many will go to Chile  
fastened to the boat deck.

Little Wilbur was walking his girl  
home from school. Both were eight  
years old.

Little Wilbur (forvently): "Margie,  
you are the first girl I ever loved."

Little Margie (sighing): "Just my  
luck! (snapping). Again I've drawn an  
amateur."

It was bedtime, and Mrs. Jones was  
overlooking the evening toilet of her  
small son.

"Oh, Tommy!" she exclaimed. "Look  
at your hand! It's all scratched and  
bleeding. How did it happen?"

Well, you see, mother, those were  
awfully sharp teeth Jimmy Johnson  
used to have."

FAMILIES APPRECIATE  
the grand, satisfying flavor  
of Maxwell House Coffee.  
They love the fragrant  
goodness of the choice  
Latin-American coffees  
that distinguish this su-  
preme fine and delicious  
blend.

"All right, Bill,  
we'll fix it up  
at the bank."

Your bank manager can serve you in many intimate ways. He sees that your  
money is safe and pays it out as—and when—and where—you direct.

If you need ready cash or working capital for your personal or business  
affairs, you can discuss a loan with him, certain that your confidences  
will be respected.

You can talk over business projects or your farming requirements with  
him—man to man—and reap the benefit of his own and his bank's wide  
knowledge of local, national and international conditions.

In these and a dozen other ways, your bank is there to serve you.

Très Chic, Mr. Cholmondeley, but...

(A SIMPLE TALE TO SHOW HOW BANK CREDIT WORKS)

Mr. C. has dreamed up this creation for  
the fall trade. He's counting on its  
being a sensational success. And it will  
be... but later.

In the meantime he's short of cash.

He's used up most of his working capi-  
tal to buy materials. He needs money  
to keep his factory going, to pay his  
workmen, to meet other bills.

So he borrows from the Royal Bank  
and doesn't lose a day. And when his  
customers pay him, Cholmondeley  
pays off the bank.

It's as simple as that—a typical everyday

transaction between this bank and one  
of its business customers.

WOULD A BANK LOAN HELP  
YOUR BUSINESS?

We are always looking for oppor-  
tunities to lend money for productive  
purposes to enterprises large and  
small.

If bank credit would further the pro-  
fitable operation of your business,  
have a talk with your Royal Bank  
Manager. He'd like to discuss it.

# ANOTHER "FIRST" FOR CHEVROLET

Brigadier R. A. Macfarlane, R.A.

## 1946 Stylemaster Sedan Makes First Trans-Canada Trip to Win Todd Medal for Brig. R. A. Macfarlane

DOWN "CANADA'S MAIN STREET"—The Trans-Canada Highway, which links province to province, from sea to sea, and opens the way to a great new era of tourist travel.

Rolling along "Canada's Main Street"—the Trans-Canada Highway—from coast to coast, Brigadier R. A. Macfarlane, D.S.O., at the wheel of a new 1946 Chevrolet Sedan, has just completed the first ocean-to-ocean automobile trip without leaving Canadian soil.

To win the A. E. Todd Gold Medal—offered in 1912 by the Mayor of Victoria—Brig. Macfarlane left Louisbourg, Nova Scotia, with the salt of the Atlantic on his rear wheels, and after nine days of driving he arrived in Victoria, Vancouver Island, B.C., and clipped his front wheels in the Pacific, having covered

**4,743 MILES**

The Chevrolet used was a stock 1946 model powered with a standard six-cylinder valve-in-head engine. It was selected by Brig. Macfarlane—who held the responsible posts of Director of Mechanization and Deputy Master-General of Ordnance, at Defence Headquarters, Ottawa—because he is convinced that a "sturdy, light, economical passenger car is ideal for the average Canadian citizen." With his extensive experience of army vehicles, on the testing grounds and on active service in two wars, Brig. Macfarlane made the new Chevrolet his choice for his history-making trip—another "first" for Chevrolet.

NEARING THE END OF THE TRAIL—J. V. Johnson and George Warren of the Victoria Automobile Club, meet Brigadier Macfarlane and his Chevrolet a few miles outside Victoria and escort him into the City.

THROUGH THE ROCKIES—The Chevrolet spent thrilling hours skirting sheer precipices and climbing high mountain roads before it encountered this quiet little valley in Canada's Rocky Range.

THE AWARD—Winning of the Todd Medal, offered in 1912, became possible with completion of the Trans-Canada Highway. It is now awarded to Brig. R. A. Macfarlane for the first authenticated journey from Louisbourg, Cape Breton, to Victoria, B.C., over a specified all-Canadian route.

THE PACIFIC—After 4,743 miles of rapid, trouble-free driving, Brigadier Macfarlane and his co-driver dip the front wheels of their Chevrolet in the Pacific Ocean—to win the A. E. Todd Gold Medal.

# OUR COMPLETE SHORT STORY—

## CRAZY FOR MONEY

By ERNEST MILES

Copyright  
Wheeler Newspaper Syndicate

BACK for the "Crazy For Money" program, Bud Watson was on the platform waiting to go on the air.

If you listened to the show two weeks ago you will remember Mart Ringery, the Master of Ceremonies, introduced Bud. He told how Bud had just been discharged from the Army and had volunteered for a stunt asked of him. But was to go out to Roscoe's Mammoth Carnival in the Fair Grounds, and to act as a singer for Captain Billy's Bathing Beauties.

Captain Billy Swanson was there to take him out and as a prize Mart gave Bud half of a \$100 bill, telling him to return in two weeks and relate his experiences, promising him the other half of the bill if he made good.

And now the program was on the air and Mart Ringery was saying, "Hello! Hello! Tonight we are going to hear what happened to Bud Watson, who two weeks ago went out to the Carnival to be a singer on Captain Billy's Bathing Beauties show. Captain Billy is here, too, and I see he has brought a very pretty blonde with him. We'll start with you, Captain. But first, who is this lovely girl?"

"Oh, this is my daughter, Dora, who got herself involved in the stunt as I brought her along with me."

"This sounds mysterious, but tell us first what you did with Bud."

"Well, I told Bud to stand by the ticket booth and watch me do a couple of ballhoos. That's how my daughter got mixed up in it, for Dora was selling tickets and Bud paid a whole lot more attention to her than to me."

"There was a big crowd of folks who had heard your broadcast and had come out to see the fun. They began calling for Bud so I brought him onto the platform. That big, red-headed six-footer just stood there long-legged. However, I managed to get him going and he did pretty well so I sent him inside to announce the events. The crowd swarmed in after him. We did a whole lot of business and Bud got better all the time."

"Then you would say Bud was a success and deserved the money?"

"He did all right but he was still paying more attention to my daughter than to the show. It ended up by my having him thrown into the tank of water."

The audience was screaming as Mart asked, "You mean to say the evening ended with Bud in the water?"

"Oh, not that night, it was three nights later that happened."

"What in the world has three nights later got to do with it? We'd better get Bud to straighten this out. Bud, tell us what happened."

Bud stammered a bit, "Well, as the Captain told you, we went out to the show and I was to listen and learn from him what to do. But that night in the ticket booth set my head in a swirl and I just couldn't concentrate on what the Captain was saying. She was very cool with me and told me to run along and attend to my own business. Then Captain Billy called me onto the platform and there I was in front of that crowd, standing with six girls wrapped in dressing gowns. Gee, I couldn't say a word."

"The crowd laughed at me and Captain Billy said, 'Get going, kid,'

so I did the best I could."

"But," asked Mart, "how in the world did you get thrown into the tank three nights later?"

"Oh, I was crazy about the girl in the booth and went back each night determined to make her like me. I hung around but she wouldn't talk. Captain Billy got madder and madder and tried to chase me away. On the third night he had a couple of fellows throw me into the tank."

"Keep going, Bud," said Mart, while the crowd roared, "you really got yourself all wet, didn't you?"

"I was certainly wet and just as I got out of the tank Dora came back with the cash and tickets. When she saw what had happened she sat to yell and chased those fellows out. Then she turned and gave Captain Billy a tongue-lashing. I didn't know until then she was his daughter."

"She seems to have begun to take an interest in you at last. What did she do then?"

"Dora sent me back into one of the dressing rooms to dry out."

"Now you're dry again," said Mart, as the audience applauded, "or is that the end of the story?"

"Oh, there's lots more of it because the Captain's more of it because I got along fine with Dora and I kept going every night. She told me she had liked me right from the start but thought maybe I was just another flake."

"Ha, ha, romance seems to have bloomed," said Mart and "let's hear what Captain Billy has to say."

"I didn't like it at first because Dora is only 18 and I've been both father and mother to her. Her mother died when she was three. But Bud is a persistent guy, I could see Dora had fallen hard for him. Bud was just out of the army and had no idea as to what he was going to do. I couldn't figure any future on that basis, but Dora straightened it out."

"She got him a job so he'd be able to marry her?"

"She certainly did. Bud is now my chief assistant and does a swell job. When the season is finished they plan to get married and I'll still have my daughter plus a dash of son."

By now the audience was standing, a cheering. Mart finally broke in: "It just goes to show you never know what a wonderful experience. Bud here is the other half of that \$100 bill. Good luck to both of you."

"Thank you very much, it has been a wonderful experience," said Bud and passed the bill over to Dora.

"There," said Mart, "it's the woman who wins. Tell us, Dora, what are you going to do with that money?"

"Well, Mr. Ringery, Bud promised it to me towards the finest tressure a girl can ever have. Bud is the best prize of all, a real Valentin, and we're going to be very happy."

"I'm sure you will be," said Mart, "and Bud may have been crazy for money but he certainly is wise in his choice of a wife."

## Farm Research

Agricultural Groups See The Need For Further Information

An increased demand for the services of agricultural economists was forecast by Dr. J. F. Booth, head of the Dominion Agricultural Department's Economic Division in a address to the 17th annual meeting of the Canadian Agricultural Economics Society at Macdonald College, Ste. Anne de Bellevue.

The Economics Division must provide information useful to farmers, those marketing agricultural products and governments dealing with the farmers' industry, Dr. Booth said.

Since establishment of the division in 1929, much of the initial work had been to build up factual information on problems faced by the individual farmer. During the war, much of the research had been curtailed, but the division had helped in developing and administering numerous farm policies.

Practically every type of activity carried on before the war was represented in requests made to the division by agricultural groups throughout the country for additional research work.

The Chinese used rockets in 1232 to repulse the hordes of Kublai Khan.

**GIRL SWIMS 13 MILES**—Swimming 13 miles in seven hours, Patricia Smith, 19, is recovering in hospital at Sturgeon Bay, Wis., sole survivor of a tragedy on Lake Michigan. Her father, a wealthy shipbuilder, and three guests on their 33-foot sloop, drowned when the vessel capsized in a sudden squall.

Mary Lomis of Chicago was one of the guests who drowned when the Smith sloop overturned. Miss Smith said she towed Mary, who had a lifebelt, for several hours until I just couldn't hang on any more. I lost my grip and she vanished in the water. The lone survivor thinks the vessel was caught in the fringe of a tornado.

## Conserve Timber

The Great Loss From Fires Has Been Stressed

The current slogans urging Canadian manufacturers to export should carry a warning that export is conditional upon conservation of natural resources, Garfield Weston, well-known industrialist said in a message to the Canadian Forestry Association.

"More than \$300,000,000 of annual exports from Canada derive from the pulp and paper mills. This is greater than our sales of gold or wheat. The pulp and paper industry stands first in total wages paid and in capital invested."

"About 6,000 of our people find means to inderate 400,000,000 cubic feet of the national wood supply every 12 months. Export stops on lands that fire passes over. And a gap of 50 to 100 years may ensue before the burned district comes to life again."

## THANKS CANADA

Viscountess Alexander Grateful For Help Given During The War

Large supplies of oranges and milk, large newspapers and envelopes which were used only once are details of Canadian life which impress anyone arriving from Britain, Viscountess Alexander said.

Speaking to the Ottawa Women's Canadian Club, the Governor-General's wife told her hearers of her children's excitement at the thought of coming to Canada and their delight with the trip.

"They have made themselves completely at home, so much so they have needed some firm handling," she said.

"It was my husband's and my idea that we should keep our children out of school until next September, until they became accustomed to their new home. But I wasn't here 10 days when I knew ours was not a wise decision, and in a few more days I sent them off to school."

Lady Alexander thanked the women of Canada for their help to Britain during the war. The Red Cross had helped to finance 100 war nurseries, the Junior Red Cross had sent comforts, the Imperial Order, Daughters of the Empire had sent clothing, the Kiwanis Club milk, and the Queen's Canadian Fund kitchen utensils and household goods.

## RECIPES

### BAKING HINTS

Before starting to mix a cake, read the recipe carefully, be sure that all the ingredients are at hand, and that the process of putting them together is thoroughly understood.

Use only the best materials. Good quality shortening (butter gives a better flavor) and using a pure high strength baking powder that assures baking success.

Use a castor sugar, coarse sugar does not blend well with other ingredients, if the supply of sugar is limited, a good plan is to sift it, and use the coarse particles for general sweetening fruit, pies, etc.

Measure all ingredients carefully, use the correct method of mixing, and bake as directed. Grease tins with lard, not butter. Pre-heat your oven using top and bottom heat, but when your cake is put in to cook turn off the top element for baking. Cakes put in the oven at too low a temperature, cause excessive steaming and makes them heavy.

### BUTTER BUDS

2 1/2 cups pastry flour  
1 cup brown sugar  
2 teaspoons Molasses vanilla  
1 cup butter or shortening  
2 well beaten eggs  
1/4 teaspoon salt  
1 teaspoon Mellow baking powder  
1/2 cup Cream butter and sugar gradually, then the well beaten eggs. Sift 2 cups of flour with baking powder and salt, combine the mixtures, and add flavoring. This should now be the texture of dough, add the remaining 1/2 cup of flour if necessary. Roll into small balls marking each one with a floured fork. Bake in a 350 to 375 oven for from 10 to 12 minutes. This makes 12 dozen butter buds and are delicious.

### POSITION WANTED

The sergeant was trying to train an awkward squad of recruits.

"Shut! About turn!" he roared. Then, as he viewed the hopeless mix-up, he went on: "As you were!"

Most of the men shuffled into the last position, but Private Jones stood still, looking vacantly ahead.

"You!" snapped the sergeant. "I said, 'As you were!'"

"I said, 'sarge,'" replied Jones, unhappily, "but 'ow were I?"

Louis XIV had 413 beds. Some were decorated with pearls, silver and gold.

## Outstandingly Good

# "SALADA" TEA

"Yes, yes, of course I'm glad to see you—who's your cute friend with the crisp, crunchy, delicious Grape-Nuts Flakes?"

"Hi! Hi—I fooled you Jim! That's our new cook. She won't serve anything but mally-rich, sweet-as-a-nut Post's Grape-Nuts Flakes for breakfast."

"Well what are we waiting for? Let's get home quick and dig into that giant economy package."

"And don't forget that Grape-Nuts Flakes are made of two grains—wheat and malted barley. They give you carbohydrates for energy, proteins for muscle, phosphorus for teeth and bones, iron for the blood, and other food essentials. They taste wonderful. They're good for you. They're easy to digest."

## SMILE AWHILE

"Now, madam, can you pick out the man who snatched your bag?"

"Oh, I think so, Inspector—do I have three guesses?"

Aspiring Vocalist: "Professor, do you think I will ever be able to do anything with my voice?"

Perspiring Teacher: "Well, it might come in handy in case of a fire or shipwreck."

"Pa," said the subscriber's little daughter, "I know why editors call themselves 'we.'"

"Why?"

"So the fellow who doesn't like what's printed will think that there are too many for him to lick."

Customer: "Can I exchange this unbreakable doll?"

Shop Assistant: "Is there something wrong with it?"

Customer: "No, only the baby's broken every breakable thing in the house with it."

"You told me you hadn't any mosquitoes," said the summer boarder, reproachfully.

"I haven't," said Farmer Home-spun. "Then you see Flynn around here come from St. Perkin's place. They ain't no mice."

Jimmy told his mother he was going to be a preacher when he grew up. Upon being asked why, he replied:

"I'll have to go to church anyway, and it's much easier to stand up and yell than to sit still and listen."

"I say," he complained, "it's not necessary to knock me down like that, is it?"

"Bless ye, no!" replied his teacher genially. "Up 'e jump an' I'll show 'e thirteen other ways of doing it."

Foreman (to small son of workman who has met with an accident): "When will your dad be ready to work again?"

Boy: "Can't say for certain, but it will be a long time."

Foreman: "What makes you think that?"

Boy: "Compensation's set in!"

Waiter: "What's wrong with those eggs, sir? Weren't they cooked long enough?"

Customer: "Yes, but not soon enough."

Patient: "I can't say why, but I get a sort of a pain, I don't know where. And it leaves me in kind of a sort of—well, I don't know."

Doctor: "Here's a prescription for I don't know what. Take it. I don't know how many times a day for I can't tell how long, and you'll be better I don't know when."

## Far-Reaching Effect

Lack Of Bailing Wire Means Less Feed For Livestock

The Wall Street Journal reports that manufacturers in the United States have been cutting down seriously on the production of bailing wire. The price ceilings have made it unprofitable for the steel mills. Lack of bailing wire means lack of hay; lack of hay means less feed for livestock, and that in turn means thinner meat animals for slaughter.

It all goes to show what a complex organism modern society has become. And it reveals the same old story, for want of a nail, the shoe was lost, for want of a shoe the horse was lost.

No farmer can bale his hay with shoe string!

## Street Renamed

Greeks Show Their Appreciation For Assistance From Canada

Lycabettus street, prominent thoroughfare in Athens, was renamed Mackenzie King street in a ceremony July 1, 70th anniversary of the confederation of Canada.

"The municipal council of Athens said the street was renamed in recognition of the gratitude of the Greek people to the Canadian Prime Minister and the Canadian people for the moral and material assistance which has been repeatedly extended to this country."

## Every Young Husband

...should answer these questions:

**Were the EXPENSES of starting your home greater than you expected?** In most cases the answer is "yes." Probably there is a mortgage and other debts. Given time, you can pay them! But they could be a burden to your wife, if something should happen to you. That is one reason why you should have adequate life insurance protection.

**Does it matter which COMPANY you insure with?** Yes! Life insurance companies are much alike as to policies and rates, but actual long-term results vary widely. Evidence of

the satisfaction of Mutual Life policyholders is furnished by the fact that whole families and succeeding generations have entrusted their life insurance programs exclusively to The Mutual Life, and each year approximately 35% of its new business comes from policyholders. Ask your Mutual Life representative to explain the special features of this Company.

## The Only Remedy for Hunger is

# FOOD!

The most efficient way in which we can send increased bulk shipments of WHEAT, MEAT, CHEESE and EGGS to needy countries is through the Canadian government food boards. These increased bulk shipments can only be made providing we reduce our own consumption. Here are five important ways by which we can make greater quantities of food available for export:

- (1) BUY AND USE LESS BREAD, FLOUR AND OTHER WHEAT PRODUCTS, MEAT, CHEESE AND EGGS. SUBSTITUTE VEGETABLES, FRUIT AND FISH WHERE FEASIBLE.
- (2) KEEP YOUR HOME STOCKS LOW — BUY ONLY ENOUGH FOR IMMEDIATE REQUIREMENTS.
- (3) AVOID ALL WASTE.
- (4) GROW A VICTORY GARDEN AGAIN THIS YEAR. PLANT MORE THIS TIME IF YOU CAN.
- (5) DONATE ANY MEAT COUPONS YOU CAN SPARE. ENQUIRE AT YOUR LOCAL RATION BOARD.

**Share with the hungry!**

## Local and General Items

Few minds wear out; more rust out. Mrs. Davidson left for a month's visit to Vernon, B.C.

Even giving the shirt off your back is a bit difficult these days.

Truth from a friend is tonic. The same words spoken bitterly are poison.

Mrs. H. L. Culham and children returned from a visit to Saskatchewan.

Mr. and Mrs. Kingston, of Bellevue, were Fernie visitors on the July 1st holiday.

Mrs. C. Fabro is visiting with her sister, Mrs. A. Fabro, and Mr. Fabro at Kimberley, B.C.

Mr. and Mrs. Eli Scraba, of Lamon, are visiting at the home of Mr. and Mrs. Lance Morgan.

Humility is a virtue all preach, none practice; and yet everybody is content to hear.

Mr. A. Gale and daughter Bernice, of Lethbridge, who have been on vacation in Fernie, visited old friends in Blaimore this week.

Mrs. Amato and Mrs. Romeo, of Calgary, sisters to Mrs. Amato and Mrs. T. Stella, left last week for a holiday in California.

Road machinery is busy this week removing the bluff to widen the road and ease the curve that leads into Coleman from the east.

Mrs. S. J. Lamey, accompanied Mr. and Mrs. J. J. McIntyre, of Coleman, to Radium Hot Springs where they will vacation for a week or two.

Fernie is to have a civic election on July 16th or 18th—the first in a number of years, where they change from a commissioner to mayor and council.

The many local friends of Mrs. R. Keer, of Macleod, regret to learn of the death, of her mother, Mrs. Jessie Lola Steen, of Nanaimo, which occurred at Santa Anna, California, on June 20th.

Sam McDowell has about completed his task taking the census locally. He expects the list to total in the neighborhood of 1770 names, with the different nationalities standing at thirty-one.

Mr. and Mrs. Albert Thompson and Mr. and Mrs. Vaughn Thompson, of Lundbreck, were week end guests of Mr. and Mrs. Oakley Thompson, at Cardston, staying over for the celebration on July 1st.

Service at St. Luke's Anglican church will be at 11 a.m., Sunday, July 14th, at which Right Rev. R. Rags, Anglican Bishop of Calgary, will induct Rev. W. Grazer as rector of St. Luke's and St. Alban's.

Mr. and Mrs. J. H. (Mickey) Pool and daughter, former residents of Blaimore, and now living at Peterborough, Ontario, are visiting the Pass this week and are guests of Mr. and Mrs. F. W. Hallworth at Bellevue.

Four Fernie oldtimers took a trip down the Pass on July 1st, taking in the Michel and Blaimore celebrations. They were Milt Kastner, 1898; Jack Wallace, 1899; Fred Johnson, 1900, and Jim Marshall, 1901. They had a grand reunion with Mr. and Mrs. Thomas Dupes and Fred's brother, Thomas, at Bellevue. At Michel they rounded up Jimmie McCol and Pete Zoratti—Fernie-Free Press.

An interesting caller at The Enterprise this week was a Mr. Aitken, who was accompanied by his wife and grown son, and were on a holiday tour by auto from California. Mr. Aitken was raised in Frank, attended school in Blaimore, and enquired about Pete Montalbet, Renie Graham, the Turner boys, the MacLarens and several others with whom he went to school, regretting he didn't have time to look them up.

It's difficult to improve upon success. Mr. and Mrs. B. Hague, of Hillcrest, were recent visitors to Cardston.

The thing that really makes men equal is that we can all change.

The virtue of justice consists of moderation, as regulated by wisdom.

The Rex Cafe is undergoing renovation since Monday and is expected to open tomorrow.

Mrs. Dobek who has been in hospital for some considerable time, is home and reported doing well.

Mr. and Mrs. D. Thornton have returned home after two weeks vacation at Waterton Lakes.

Mr. Clifford Rees, of Manton Bros., Winnipeg, was a business visitor to Blaimore this week.

Mrs. F. M. Thompson, who has been visiting in Vancouver for a few weeks returned home Sunday.

Mrs. Roland Pinkney and children returned from a visit to Mr. and Mrs. R. Thompson, of Sheep Creek, B.C.

There's no limit to the good a man can do if he doesn't care who gets the credit.

Many people can remember all the details of a joke except the names of the people they told it to.

**GOLF NOTES**—On Sunday, July 14th, competition in the Green Cup takes place on the local course, starting at 10 a.m.

Mr. and Mrs. Marshall Hamilton and Miss D. Hamilton will return on Saturday after a week's vacation at Nelson, B.C.

Mrs. G. Pangman and son, of Trail, B.C., are visiting at the home of the former's parents, Mr. and Mrs. W. L. Evans.

Rev. Dr. Robert Magowan, BA, BD, was inducted as pastor of St. Paul's United church at Coleman on Friday evening last.

Mrs. L. Sykes is in Calgary on vacation and will be joined by her husband this week end. They will return next week.

It's easy to pick out the hostess. She's the one trying to move glasses and cigarette butts in time to save the furniture.

The wedding is a ceremony that takes place after he stops calling her up and before she starts calling him down.

And another of life's great mysteries is whether people sing in their bath tubs because they are happy or because the door won't fasten securely.

One of the toughest jobs modern parents have is teaching their offspring good manners when the little brats hardly ever see any.

Of course few people believe in signs, but a Hartford (Conn.) hearse has a license plate bearing the designation "U-2."

Our idea of common sense is to see a man with a forty-eight vest measure wearing a pair of shoes that don't have to be laced.

The brain is a wonderful organ! It starts working the minute you get up and does not stop until you reach the office.

A middlewest, draftee claimed exemption on the grounds of poor eyesight—and brought his wife along as evidence.

**HUSBANDS ALWAYS APPROVE** your coffee when it's Maxwell House. They simply love it because "Radiant-Roasting" brings out all the extra goodness in this superb blend of finer coffees.
